Culture for, with and by Children

The Child Cultural Network of the Copenhagen Metropolitan Area is pleased to invite you to a three-day international conference on Child Culture in Copenhagen, Denmark, May 20-22, 2008.

The programme for the Conference is spectacular. It has been made possible only by a joint cooperation between a range of different professionals working with Child Culture.

The purpose of this conference is to provide a basis for new visions and strategies in regard to Child Culture that transcends nationalities and sectors. This will happen through inspiring and challenging presentations by professionals from the UK,

Germany, Belgium, Sweden and Denmark, workshops in 10 municipalities, panel discussions, speed-dating and other events with movies, songs, dance, theater and music.

The conference takes place at the Experimentarium in Copenhagen; a dynamic and creative science centre which we hope will inspire to an interesting conference and furthermore promote our idea of consolidating Child Culture in the Copenhagen Metropolitan Area by establishing an Experimentarium specifically for art and culture.

We know Child Culture makes a difference. We look forward to optimizing synergies in this field with you!
